MAHLE TechTool sheds light on thermal management

- MAHLE Aftermarket continues to expand its information portfolio for thermal management
- New online tool offers information at OEM level
- Detailed insights into automotive air conditioning and engine cooling in passenger cars and commercial vehicles for beginners and professionals

MAHLE Aftermarket is making more information available on the subject of thermal management with a new online database. Aimed at both beginners and professionals, MAHLE's TechTool offers information at OEM level in 14 languages and gives detailed insights into automotive air conditioning and engine cooling in passenger cars and commercial vehicles.

The intuitive menu design makes navigating the MAHLE TechTool straightforward and quick. After selecting the vehicle category, the user can choose between systems or component level. An explanation of the selected element is then given along with potential defects, their causes, and solutions. This information is complemented by video animations showing how the individual components work.

The MAHLE TechTool can be accessed via the following link:

About MAHLE

MAHLE is a leading international development partner and supplier to the automotive industry. The technology group is committed to playing an active role in transforming the mobility of the future by further optimizing the combustion engine, driving forward the use of alternative fuels, and laying the foundation for the worldwide introduction of e-mobility and other alternative drives, such as fuel cells. The Group's product portfolio addresses all the crucial aspects of the powertrain and air conditioning technology.

In 2019, MAHLE generated sales of approximately EUR 12.0 billion and is represented in over 30 countries with more than 77,000 employees in 160 production locations and 16 major research and development centers. (Last revised: 2019-12-31)

About MAHLE Aftermarket

MAHLE Aftermarket, the business unit specializing in spare parts, uses the expertise from the series production of original equipment in its product range and supplies trade, workshop, and engine repair partners. The portfolio also includes products developed by MAHLE Service Solutions for workshop equipment as well as comprehensive services and customized training programs.

MAHLE Aftermarket is represented at 25 locations and other sales offices worldwide, with around 1,700 employees. In 2019, the business unit achieved a global sales volume of about EUR 950 million.
